

PMD table

Tasks	Dependencies	Duration(Days)
GROW-37	None	2
GROW-40	GROW-37	3
GROW-47(sub-task of GROW-36)	None	1.5
GROW-48(sub-task of GROW-36)	GROW-47	0.5
GROW1	None	1.5
GROW-6(sub-task of GROW-1)	Grow1	0.5
GROW-36	None	5
GROW-2	GROW-36,GROW1	3
GROW-46	None	2
GROW-42	None	2
GROW-64(sub-task of GROW-38)	None	5
GROW-39(sub-task of GROW-38)	GROW-64	1
GROW-65(sub-task of GROW-38)	Grow-64	5

Network Diagram

The main critical path is highlighted in red as it determines the minimum time necessary to complete the entire project, which is 10 days.

To keep our sprints on schedule we regularly communicated with our subordinates and collaborated with them when they needed help. We always updated each other on Discord if our tasks were finished , so that others could start their tasks which have dependencies. Consequently, since there was a lot of communication between out team, we were able finish everything on time
